

# WHAT PEOPLE ARE SAYING ABOUT “LIFE AS A SINGLE MOM: IT ISN’T EASY, OR IS IT?”

By Stephanie M. Clark

Released October 26, 2007

“For many years now, I have had the opportunity and experience of working with women through Dress for Success Worldwide, many who are single mothers. I understand the challenges and problems many women endure as they struggle to create a better life for themselves and their children. Ms. Clark’s book, *Life As A Single Mom...* is a well-crafted tool full of helpful tips and inspiring stories that are applicable to any parent raising adolescent children. Her book presents realistic solutions and achievable approaches for mothers to achieve success both in their personal lives as women and as parents.”

“As a single mother herself, Clark is well equipped to speak on the subject of raising healthy, productive children on your own. Her debut book, *Life As A Single Mom...* is an honest expression of her commitment to empowering single mothers with information to become more effective parents to their children.”

“I have read the book twice already. I enjoyed it so much that when I need to know that I’m not alone in this struggle as a single mom, I frequent the book. This book is almost like my bible. I am so blessed to have Ms. Stephanie in my life. This book showed me that I need to be strong and no matter what, I need to take care of me and my child with or without a man. I learned that I need to be happy in order to love. I discovered that I’ve been loving everyone except myself. I realized this when I was putting myself through things that did not exhibit self worth. Because of this book I am seeing a new me and a new beginning. Those who haven’t read the book please make time. I promise it’s worth every moment spent.”

“Single motherhood is a challenging experience that can weigh mentally and emotionally on mom. Decisions and lifestyles are completely different from that of a two parent home but if this is you, don’t feel alone. Stephanie M. Clark’s “Life as a Single Mom: It isn’t easy or Is It” dives head first into the world of single motherhood as it tackles issues that plague this community of strong willed women.

Intended to serve as a guide that will walk single mothers through the motions of improving their parenthood trade, “Life as a Single Mom...” is equipped with personal accounts from various single moms who experienced multiple hardships. Undoubtedly, moms can expect to pick up some great tips that will effectively take them through the chaos of raising children alone. Additionally, Clark doesn’t neglect to address teen mothers that may be experiencing some of the same adversity in raising their children. In fact, the book includes a chapter exclusively targeted to teenage moms and young women who could be headed in that same direction.

“Life as a Single Mom...” is a wonderful read for single moms in need of a little direction. It’s fun, it’s informative and it’s real. Most importantly, it addresses all moms experiencing difficulty in raising their children and empowers them with confidence to be the best parent they can be.”

WHAT PEOPLE ARE SAYING ABOUT  
“LIFE AS A SINGLE MOM: IT ISN’T EASY, OR IS IT?”

By Stephanie M. Clark

“This book has definitely been a blessing for me. As a single mother who comes from generations of single parenting, so many important things are put on the back burner just to make it each day with the day to day family issues and concerns. I took so many wonderful things from this book, but the most important thing I took, is to be all I can be. I have to be the best woman I can be which will make me the best mother I can be. I am more determined after reading Ms. Clark’s book to be the best mother to my child and all the other children out there whose present image of a mother isn’t that encouraging. By me being my best I can pour that same thought process on any and everyone I come in contact with.”

“This book is great for encouraging parents both single and married. As one of the contributing authors it was my pleasure to share with others the lesson learned and victories of parenting. Ms. Clark is doing a great job sharing with others. She recognizes that teaching starts with the parent. The forward by her mother is great. Ms. Clark had a good teacher.
